

PROBE 200

SONIC DRILL CORPORATION

WORLD-LEADING DESIGNER AND MANUFACTURER OF SONIC DRILL RIGS

SPECIFICATIONS

POWER SOURCE: Perkins 404D - 22T 2.2 L Turbocharged EC stage IIIA/USA EPA Tier 3, Hydraulic Oil Cooler, 12VDC

RIG DECK: Formed & Reinforced Deck Skin, Tubular & Channel Framework, Anti-Slip Surface

JIB HOIST: Variable Speed Planetary c/w Brake, 1,000 LBS Capacity (Bare Drum), 0-164 FPM

WATER PUMP: FMC Four Piston Pump, 20 GPM, 600 PSI

HYDRAULIC SYSTEM: Single Variable Displacement Pump, Pressure and Flow Controlled

DRILL HEAD: EP-26 hydraulically driven rotary head with vibration

HOSE CARRIER SYSTEM: High Pressure Hydraulic Tubing

CONTROL CONSOLE: Compact Lightweight Configuration, Ergonomic Configuration, Key Start, Remote Throttle, Digital Tachometer, Pilot Control Valves

CRAWLER BASE: Rubber Tracks (Optional Steel Tracks), Pendant Control With Cable is Standard (Optional Wireless Radio Transmitter)

BREAKOUT TABLE (OPTION): Open C-Clamp Table, Clamping Range: 1½ to 6½ inch nominal

- Sonic Drill Corporation originated sonic drilling technology and introduced the concept to the drilling industry
- Our equipment is the result of over 25 years of extensive research and development
- We have a solid history of real world testing with machines in daily operation around the world in a variety of applications

OPTIONS

- Accessory power port, 12V
- Auxiliary hydraulic ports
- Breakout table (1½ to 6 inch nominal, 3 level)
- Decontamination racks
- Exterior working lights
- Jib with winch
- Machine vise and mount
- Mast length (increases tower maximum drill rod length to 2 meters)
- Receiver hitch hookup
- Rod casing guide
- Rod rack
- Skid, heli platform or truck mount
- Water pump (FMC, E0413 HD)
- Water swivel for sampling with circulation fluid
- Water transport system
- Emergency stop pull cord system
